

The Teaching & Learning Interchange

Serving CA Pre-Intern Teachers • www.teachinginterchange.org • A CCSESA PT3 Grant Project

The TLI provides online services to support California pre-intern teachers with demonstrating subject matter competency and to support new teachers with developing as professional educators. Teachers who are actively involved with any of our partner pre-intern or intern programs across the state may register for courses.

CSET/SSAT Subject Matter Preparation Beginning January 2003 - CSET Science Prep

Online Courses begin approximately 10 weeks prior to each CSET test date. See the website for registration and detailed subject matter information.

Lesson Lab: Virtual Classroom Observations

Beginning February 2003

In this online environment, participants observe master science teachers from the San Francisco Exploratorium teacher development program teaching in their own K-12 classrooms. The video is fully transcribed and the teachers have included support materials, connections to standards, samples of student work and more.

Register online to participate.

Initial Teacher Training: Classroom Management Beginning February 2003

Courses for both Elementary and Secondary classrooms is offered online through the New Teacher Center at Santa Cruz. Register online for sessions beginning each month.

Online Resources for California Teachers Available Immediately

Our online portal is still in development, but we have been able to glean some of the best resources for developing teachers. Visit here to access sample lesson plans, hints from experienced teachers and connections to the curriculum standards and assessments.
